OBJECTIVE

Enthusiastic B.Tech CSE student having basic foundations in Java, Python, SQL, and data analytics tools including Power BI and Pandas. Certified by IBM and Deloitte, with proven project experience and a problem-solving mindset. Passionate about building real-world solutions and continuously improving technical skills.

EDUCATION

- KIPM College of Engineering and Technology Gida, UP** 2024 - 2028
B.Tech – Computer Science & Engineering | CGPA: **8.45**
- Zenith Convent School Gorakhpur, UP** 2023
Intermediate | **90%**
- Zenith Convent School Gorakhpur, UP** 2021
Matriculation | **92%**

TECHNICAL SKILLS

- Programming Languages:** Java, Python, SQL
- Core CS Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)
- Data Analytics:** Pandas, NumPy, Matplotlib, Power BI, Microsoft Excel
- Database:** SQL (MySQL)
- Tools & Platforms:** Git, GitHub, IntelliJ IDEA, VS Code, Eclipse, Swing (Java GUI)

PROJECTS

- Car Rental System — *Java, OOP***
 - ✓ Developed a console-based system using OOP concepts (encapsulation, inheritance, polymorphism).
 - ✓ Implemented features like car availability, booking, returns, and billing.
 - ✓ Used modular class design for Car, Customer, and Rental operations.
- Student Library Management System — *Java, SQL, Swing***
 - ✓ Built a Java Swing GUI application to manage book issuance, returns, and student records.
 - ✓ Integrated MySQL using JDBC for data storage.
 - ✓ Implemented CRUD operations with a user-friendly interface.
- Smart Sales Analytics & Recommendation System — *Python, SQL, Power BI***
 - ✓ Analyzed sales data using **Python (Pandas, NumPy)** to identify key trends and customer behavior.
 - ✓ Used **SQL** to extract insights like top products and revenue patterns.
 - ✓ Built interactive dashboards in **Power BI** for data visualization.
 - ✓ Implemented basic **product recommendation logic** based on purchase patterns.

CERTIFICATIONS

- IBM SkillsBuild Spring Certification Program 2026 – Data Analytics | IBM SkillsBuild** | March 2026
- Data Analytics Job Simulation | Deloitte** (via Forage) | October 2025
